Notes to Aid Completion of the Request

- <u>Please note that not all questions will be applicable to your organisation.</u>
- Please avoid adding extra text in areas other than the free text boxes provided. Most questions have multiple choice options for ease of answering.
- Boxes with a red outline indicate a dropdown multiple choice question.
 - Please click on the box to select your answer.
- ☑ Small boxes in multiple choice questions can be clicked on to mark an 'x' in that answer.

Definitions

Organisation: The trust or health board that this request was sent to.

Last financial year: 1st April 2020 - 31st March 2021

Mandatory training: "is compulsory training that is determined essential by an organisation for the safe and efficient delivery of services. This type of training is designed to reduce organisational risks and comply with local or national policies and government guidelines."

Taken from: Royal College of Nursing, 2018. Training: statutory and mandatory [Online]

If you have any questions, please do not hesitate to get in touch by email: ceo@babylifeline.org.uk

Responders to the Request

 Could you tell us the job roles of all the individuals who provided information f

Head of Midwifery Practice Development Team Senior Midwifery team Obstetric Consultant

2. Please provide us with the details of a main clinical point of contact for this request.

We will use this information to follow-up on your organisation's response, ask for feedback, and forward the published report of the national response to this survey.

Name	Caroline Diamond	
Email	Caroline.diamond@northerntrust.hscni.net	
Telephone	02894422298	
Job Role	Head of Midwifery	
Employing organisation	NHSCT	

3. Around how many babies were delivered by your organisation over the last financial year? 3001-4000

2. T	The Management of Maternity Services Staff Training			
1.	Which statement most closely resembles how training for staff working within maternity services is prioritised in your organisation?			
	☐ Training priorities for different staff groups (e.g. for rAHPs) are <u>reviewed and decided separately</u> by training			
	☑ Training priorities for different staff groups are <u>reviewed and decided mostly separately</u> by training leads in each discipline, but with some collaboration between disciplines for specific aspects/topics (e.g. skills drills)			
	☐ Training priorities for the whole maternity service are multi-professional group which includes midwifery, obseminimum.			
2.	Please provide the role(s)/job title(s) of those involved in maternity service.	reviewing and deciding training priorities for your		
Senior Midwifery Team, Consultant Team, Practice Development Team, Consultant Midwife				
3.	. What information is considered when deciding training priorities/Training Needs Analyses for maternity services within your organisation? (Please select <u>all</u> that apply)			
	services within your organisation? (Please select <u>all</u> that ap	pply)		
	Serious incidents Serious incidents (Please select <u>all</u> that ap	oply) ⊠National guidance		
	⊠ Serious incidents	⊠ National guidance		
	☑ Serious incidents☑ Near-misses	☑National guidance ☑National reviews of morbidity and mortality		
	Serious incidentsNear-missesComplaints	☑ National guidance☑ National reviews of morbidity and mortality☑ Staff feedback/request		
	☑ Serious incidents☑ Near-misses☑ Complaints☑ Needs identified in local population	☑ National guidance☑ National reviews of morbidity and mortality☑ Staff feedback/request☑ Local review of outcome data		

4. How often are training priorities reviewed and updated for your maternity service?

	More often than twice per year				
5.	Thinking about time allocated for staff to attend training/CPD activities				
	a.	Did your organisation allocate a percentage uplift specifically for midwives to attend CPD training? (separate to uplift allocated for sickness/other absences) □No □Yes (what percentage was used?)			
		5 22% is built into each budget to cover staff training & absence			
	b.	Did your organisation allocate a percentage uplift specifically for <u>maternity support workers</u> to attend CPD training? (<u>separate</u> to uplift allocated for sickness/other absences) ☑ No ☐ Yes (what percentage was used?)			
[229	% is built into each budget to cover staff training & absence			
L					
	C.	How many days of study leave were available in your organisation for <u>junior doctors working within</u> <u>obstetrics</u> (at registrar level) to attend CPD training? (if this varied, please provide an average)			
		There is not a specific number of days for CPD. This is included in the Rota every Friday afternoon to allow them to attend the required number of sessions and more.			
	d.	How many days of study leave were available in your organisation for consultants working within obstetrics to attend CPD training? (if this varied, please provide an average) 10 Days per year			
		10 Days per year			
		How many hours per week of <i>supporting professional activities</i> (SPA) time was allocated in your organisation to <u>consultants working within obstetrics</u> ? (<i>if this varied, please provide an average</i>)			
		1.5 SPA's per week			
3. T	he A	ssessment of Maternity Services Staff Training			
1.	Is data analysed and course content modified in response to evaluation of training programmes provided to maternity staff at your organisation? □No □Yes (please give an example below)				
2.	□ I ⊠ I	which time points do you collect evaluation data on your <u>in-house</u> training? (select all that apply) mmediately pre-course mmediately post-course After a period of time has passed since training (please specify e.g. 12 weeks)			

3. Do you evaluate whether any training you provide has an impact on clinical outcomes (e.g. po haemorrhage, hypoxic ischaemic encephalopathy)? ☑ No		
	□Yes (please explain how below)	
	Prompt training is delivered with regard to evaluation of training outcomes received by PROMPT3. We	
	do not specifically evaluate whether training has had positive impact on clinical outcomes but consider	
	that outcomes have positively been impacted by regular MDT training by reviewing clinical incident	
	themes, audits etc.	
4.	Of the training topics provided to maternity staff by your organisation, what percentage do you evaluate using clinical outcomes? 25-49% of topics	
5.	What are the barriers to fully evaluating the maternity training provided within your organisation?	
	□ Poor staffing in the practice education team	
	☐ Lack of guidance/information on assessment methodologies	
	□ No barriers identified	
	☑ Other (please specify)	
	Release of staff from clinical role	
	Release of staff from elifications	
4. T	he Delivery of Maternity Services Staff Training	
1.	Do you involve other specialities in your training by either involving them in delivery of training, or inviting them to attend? e.g. Involving paramedics in community skills & drills training, or critical care staff in training on management of the acutely unwell woman. \[\text{No} \] \[\text{Yes} (please give brief examples below)}	
	Paramedics, resuscitation officers, anaesthetists	
2.	Have you identified barriers to providing multi-professional training? i.e. different professionals (obstetricians, midwives, obstetric anaesthetists, etc) in the maternity team training together	
	□ No ☑ Yes (please give brief examples below)	
	□ No □ Yes (please give brief examples below) Access to appropriate space to carry out training, virtual platforms are not suitable for all components	
	□No ⊠Yes (please give brief examples below)	
3.	 □ No ☑ Yes (please give brief examples below) Access to appropriate space to carry out training, virtual platforms are not suitable for all components for measuring competency Do you tailor your training to allow staff to upskill in topics relating to the specific characteristics of your local pregnant population? This involves knowing the local demographic and possible vulnerabilities (e.g. aging population, women with multiple disadvantages, specific diseases). ☑ No 	
3.	□ No □ Yes (please give brief examples below) Access to appropriate space to carry out training, virtual platforms are not suitable for all components for measuring competency Do you tailor your training to allow staff to upskill in topics relating to the specific characteristics of your local pregnant population? This involves knowing the local demographic and possible vulnerabilities (e.g. aging population, women with multiple disadvantages, specific diseases).	

4.	Are staff qualified in examination of the newborn (NIPE) required to attend refresher training?		
	□Yes ⊠No		
5.	Did you use external providers to deliver any of the training provided to your maternity staff in the last		
	financial year?		
	□No		
	Hypnobirthing training was carried out virtually by an external provider		
l			
5. <i>A</i>	Attendance at Maternity Services Staff Training		
1.	With regard to <u>mandatory</u> training, do you audit how often maternity staff attend updates within the time specified by your organisation's guidelines?		
	⊠Yes □No		
	If no, please skip to Section 6 "Training Budgets"		
2.	When audited, what was the rate of timely attendance for all staff at mandatory training/updates?		
	25-50%		
3.	What was the rate of timely attendance for midwives?		
	25-50%		
4.	What was the rate of timely attendance for <u>consultant obstetricians</u> ?		
••	25-50%		
	25 3670		
5.	What was the rate of timely attendance for junior doctors working in obstetrics?		
	25-50%		
6.	What was the rate of timely attendance for consultant obstetric anaesthetists?		
	25-50%		
7.	What was the rate of timely attendance for junior doctors working in obstetric anaesthesia?		
	Not audited		
0	MI - II - CI - II - C - II - C - C - C -		
8.	What was the rate of timely attendance for <u>other staff groups</u> (e.g. ODPs, MSWs)?		
	Not audited		
C T			
6. I	raining Budgets		
1.	What was the amount (£) spent on <u>direct costs</u> of maternity training provision over the past financial year		
Τ.	by your organisation (from any source)? This might include venue costs, costs of paying external providers, etc.		
	£ 0		
2.	Did your organisation budget for backfill of those staff attending training?		
۷.	No		
	\square Yes (please specify how much was spent on this over the past financial year)		

6		
±.		

3. Thinking about the source of these funds, what percentage was provided by each of the following:

Allocated by the organisation	% - N/A
Health Education England	% - N/A
Hospital Charity Funds	% - N/A
Other (please specify)	% from – N/A

4. Within your organisation, do you provide an individual allocated budget for professionals in the following groups to attend CPD training?

An individu ☐Yes	al CPD budget per midwife? ⊠No
An individu □Yes	al CPD budget per junior doctor working within maternity services? ⊠No
An individu □Yes	al CPD budget per consultant working within maternity services? ⊠No
 d. Do any other staff groups have an individual CPD budget allocated? ☒ No ☐ Yes (please specify which) 	
	□Yes An individu □Yes An individu □Yes Do any othe □No

7. Training Topics

The following sections will ask you to provide details about which topics of training were provided to maternity staff at your organisation <u>over the past financial year</u>. We will also ask about the content and format of training provided.

Your answers should include training considered mandatory; training provided but considered non-mandatory; training provided in-house; training which was commissioned by the organisation but provided by external agencies and also training provided via any medium (e.g. online or workshop based).

When answering, please include training provided to any member of clinical maternity staff.

We will be asking you about training provided under the following topic headings:

1	Emergency skills & drills: Including shoulder dystocia, cord prolapse, eclampsia, hypertensive crisis, antepartum & postpartum haemorrhage, vaginal breech birth, uterine inversion, uterine rupture, amniotic fluid embolism, maternal collapse, water birth/pool drill, covid-19 positive emergency, impacted fetal head, anaesthetic related emergency and intrapartum deinfibulation
2	Fetal monitoring: Including Continuous Electronic Fetal Monitoring (CTG) and Intermittent Auscultation
3	Interpersonal and human factors skills: Including communication, situational awareness, communication/handover tools, cognitive bias, impact of stress/fatigue/workload and escalation
4	Early recognition & management of the acutely unwell woman: Including early recognition, enhanced maternal care, maternal critical care, and assessment and management of a covid-19 positive woman

5	<u>Sepsis:</u> Including recognition and management of maternal sepsis and recognition and management of neonatal sepsis
6	Co-morbidities in pregnancy/management of high-risk pregnancies: <i>Including hypertension, diabetes,</i>
	obesity/women post bariatric surgery, thromboembolism, cardiovascular disease, epilepsy, advanced
	maternal age, teenage pregnancy, twin pregnancy, stroke, malignancy
7	Adult/maternal life support
8	Newborn life support
9	<u>Learning from adverse events:</u> Including incident reporting, learning from adverse events, candour, and family engagement
10	Informed consent
11	Other professional issues: Including documentation of care, raising concerns/whistleblowing, and personalised care
12	Reducing smoking in pregnancy
13	Screening for fetal growth: Including measurement of symphysis fundal height (SFH), plotting and interpretation of SFH using local charts and when to refer
14	<u>Preterm birth:</u> Including recognition of women at risk, appropriate referral/preventative strategies, and optimisation of perinatal care for the extremely preterm infant
15	Management of reduced fetal movement
16	Ongoing antenatal and peripartum risk assessment: Including antenatal & intrapartum risk assessment,
	planning place of birth, appropriate transfer, appropriate referral/shared-care, and reducing risk of
	transmission of serious infection to the fetus/neonate
17	Assessment, management and prevention of perineal trauma: Including management of first, second,
- 10	third and fourth degree tears, and prevention
18	Perinatal mental health
19	Bereavement care
20	Newborn care: Including neonatal hypoglycaemia, neonatal jaundice, thermoregulation, procedures and
21	positioning for safe skin-to-skin care, newborn feeding, and examination of the newborn
21	Care of women following operative interventions
22	Induction and augmentation of labour
23	Instrumental and assisted delivery: Including forceps delivery, ventouse delivery, and manual rotation
24	Pain relief during labour and birth: Including safety, choice, access, and consent, and care of epidurals
25 26	Cultural competency Safaguarding adults to be discovered and demonstrating and account violance
27	Safeguarding adults: Including handling disclosure and domestic and sexual violence
28	Resilience/wellbeing for healthcare professionals Promoting normality in childbirth
	Complementary therapies
29 30	
31	Family planning and contraception Safeguarding children and young people
32	Substance misuse Other materials training
33	Other maternity training

8. Thinking about training offered to maternity staff by your organisation over the last financial year...

Topic 1

1a.	1a. Did your organisation offer emergency skills & drills training to maternity staff in the last financial year Including shoulder dystocia, cord prolapse, eclampsia, hypertensive crisis, antepartum & postpartum haemorrh vaginal breech birth, uterine inversion, uterine rupture, amniotic fluid embolism, maternal collapse, water birth, drill, covid-19 positive emergency, impacted fetal head, anaesthetic related emergency and intrapartum deinfibulation.			
		☑ Yes, and it was mandatory training for some/all staff		
		ras not part of mandatory trair		
		ic was not offered to staff by t	_	
		If you did not provide this	training, please skip to Section 9 (Topic 2).
