

Freedom of Information Request –

1. On 21st December 2021, how many of your current patients were admitted because of covid?

On 21st December 2021, 65 patients in Northern H&SC Trust hospitals had a Covid code as their method of admission or had Covid as their primary diagnosis.

2. How many were vaccinated / unvaccinated?

The Trust does not hold a list of inpatients who have had their Covid vaccinations. Some patients may have their vaccination status recorded within their casenote as part of their medical history, however it is not held centrally in a readily available format.

3. What age categories are these patients in (by vaccinated / unvaccinated status)?

Age band	Patients
Under 50	11
50-79	12
80+	42
Total	65
