

Freedom of Information Request

What is the current number of vacant nursing positions within the trust?

Please see response in tables below. This data covers all Trust sites, acute and community, and all nursing and midwifery specialities. Data is presented below in two ways, the first table shows vacancies across all bandings where there has yet been no appointment made but there is a current recruitment process in place. The second table are the additional posts which remain vacant at this point in time but an appointment has been made and the individual staff member is undergoing pre-employment checks prior to commencement.
