Notes - e.g. we are currently out to tender Is this contract annually renewed? - **Yes**

Do you currently have plans to replace this system? - **Yes**

Procurement framework - Other systems it integrates with? - Notes - e.g. we are currently out to tender **Clinicom PAS will be replaced by the Northern Ireland region-wide Electronic Patient Record solution, EPIC which has already been procured for deployment throughout all of Health & Social Care, Northern Ireland. The contract for this solution was managed for all Northern Ireland HSC Trusts by Digital Health and Care Northern Ireland (DHCNI), HSCB, Linenhall Street, Belfast BT2 8BS**

System definition:

Electronic Patient Record (EPR) – An electronic patient/health record is a digital version of a patient's paper chart.

Patient Administration Systems (PAS) – these are the core enterprise systems, containing a Master Patient Index, used by NHS trusts to enable them to know when a patient has arrived, who they are, who they were seen by, what treatment they received and what happened to them. This core functionality, needed by every trust, covers admission, discharge and transfer.
