

Freedom of Information Request

- 1. I would like to know the number of cycles you have been using on the PCR (Polymerase Chain Reaction) test as standard and if that number has ever been changed at anytime for whatever reason.**

35 cycles to determine positivity.

- 2. I would also like to know how many children under the age of 16 have been logged as a death from SARSCoV2 without any underlying health issues.**

Nil.

- 3. Can you also tell me if you have any records of SARSCoV2 going through Postulates?**

Defining whether new micro-organisms (including viruses) cause disease is the role of bodies like the WHO rather than individual healthcare providers. We refer you to the extensive scientific studies published on this topic that are freely available to all as part of the global COVID-19 response.
