

Freedom of Information Request

Please may you provide me with the following information?

- From Jan 1st 2021 how many members of the nursing staff at your Trust/Board have resigned/quit their employment?
- Of that number how many have left the NHS or nursing altogether?
- Can I have list of the reasons given why a member of staff decided to leave?
- What was the most common answer given, and by how many people?

Q1 and Q3. There were 274 (WTE 218.41) registered Nursing staff (Exc Bank staff) that resigned between 1 January 2021 to 31st October 2021. Broken down by leaver reason (this is the reason they stated for leaving);

Leaver Reason	Headcount	WTE
Resignation & Transfer to Other HSC Org	151	119.25
All Retirements	105	88.4
All Other Reasons	18	10.76
Grand Total	274	218.41

Our leaver figures refer to staff that have left our Trust but not necessarily left the nursing profession.

We are unable to answer questions 2 and 4.
