

Freedom of Information Request

Please provide me with breakdown of all cases of Sepsis deaths (also known as blood poisoning or septicaemia) recorded in hospitals within your trust catchment area between 2017 and 2021.

Please provide the information in a Microsoft excel spreadsheet with as much of the following column headings as possible for each case:

Month and year diagnosed

Gender of person

Hospital diagnosed in

Age (age range)

The table below shows deaths in Northern HSC hospitals between 01/01/2017 and 31/12/21 with a primary diagnosis of sepsis, broken down by gender, age group and year. Note that no further breakdown is possible as this would result in very small numbers (<5) with a potential risk to the identification of individual patients.

Sex	Age range	Y2017	Y2018	Y2019	Y2020	Y2021	Grand Total
F	<70	12	15	13	11	10	61
	70-79	27	29	16	13	15	100
	80-89	35	39	30	22	34	160
	90+	19	18	18	9	21	85
F Total		93	101	77	55	80	406
M	<70	19	14	15	14	16	78
	70-79	21	29	16	16	17	99
	80-89	27	49	44	38	23	181
	90+	18	11	11	9	7	56
M Total		85	103	86	77	63	414
Grand Total		178	204	163	132	143	820
