

Freedom of Information Request Reference

I am conducting some research into a publicity/policy campaign and I have a rather indelicate request. Can you tell me how many diagnoses of childhood cancer (Under 16) were recorded by Northern HSCT between 1st January 2010 and 31st December 2019? I need the information broken down by the UK Parliamentary Constituency for the following constituencies:

East Antrim

North Antrim

South Antrim

All cancer services for under-16s are delivered through the Belfast HSC Trust. Northern Health and Social Care Trust; therefore, does not hold complete data for these patients so we recommend directing the question to the Belfast Trust. Contact details are provided below for your convenience.
