'I'm the Policy & Public Affairs Officer for the College of Podiatry and I've been tasked with collating up to date podiatry figures for each of NI's health trusts – that's full time equivalent numbers per banding, gender and age groupings. It's to get an accurate UK wide overview for the new CoP strategy group set up specifically to examine recruitment to the profession. I'm aware there are stats available on the Dept website but I'm keen to get the most current picture for each trust by banding, age, and gender. I hope that's possible.'

1. NHSCT Podiatry Staff by Gender as at 31st July 2020

	WTE
Female	37.58
Male	13.60
Grand Total	51.18

2. NHSCT Podiatry Staff by Job Banding as at 31st July 2020
