

Freedom of Information Request

- **I am requesting statistics relating to the number of Stillbirths and miscarriages of babies in Northern Ireland from January 2021- Present day.**

- The number of stillbirths over 24 weeks gestation for the period of 1st January 2021 to 25th May 2022 (present) in the NHSCT was 21 babies.

- The number of miscarriages from January to present is more difficult to determine. 399 miscarriages are recorded within the Northern Health and Social Care Trust for the period of 1st January 2021 to present. This includes hospital admission and day cases. However it does not include women who may have had miscarriages at home and have not required any hospital care.
